MANY PATHWAYS TO SUCCESS

Get Clients of Reference in
the Basque Industry 4.0 Hub

PATH 1

BIND 4.0 Open Innovation & Acceleration Program

Reach 70 Industry Leaders who act as Venture Clients by offering contracts to Startups for real Industry 4.0 projects. The BIND 4.0 Open Innovation and Acceleration Program connects dynamic startup teams with well-established companies, to provide external solutions for their internal digital transformation challenges.

24 weeks of active acceleration while implementing your technology includes high impact workshops, a dedicated expert mentor, regular networking events, access to financing and exceptional business support.

Application date for startups: July

PATH 2

BIND 4.0 SME Connection

The 30 SMEs that form the BIND 4.0 SME Connection are active members of 6 Basque Business and Cluster Management Organizations and leaders of reference in their sector. The members identify a series of common industry challenges that directly affect their businesses. The goal is to respond to these sector-led challenges through the development of innovative projects in collaboration with technology startups.

After the success of the first edition, this program has confirmed to offer multiple benefits to Startups including positioning in the marketplace, product validation and reference clients within the Basque Industrial Ecosystem.

Startup Application date: January

PATH 3

BIND 4.0 GovTech

Focused on innovation in the public sector, 6 government organizations from the Basque Country are seeking groundbreaking startup technologies. Members of BIND 4.0 GovTech identify individual technological challenges they are facing. Startups with solutions that enhance the accessibility, efficiency, and sustainability of public services are encouraged to apply.

This new initiative presents innovative startups with the opportunity to work on real use case projects in the public sector and access training to promote the success of collaborative projects with government agencies.

Startup Application date: January

BIND 4.0 Impact

With 7 editions of proven success, BIND 4.0 helps implement mutually beneficial Startup-Corporate collaborations.
